

Case Study

LISTEN TO YOUR BODY

Design Service

Listen To Your Body is a premium health and fitness service with six locations.

With a strong focus on personal training and client engagement, marketing and effective branding is vital to the ongoing success of the Listen To Your Body business.

Alpha Lewis Signs has worked with Listen To Your Body since 2013 to create a wide variety of signs for several of their locations. Our favourite piece of signage is a customised internal wall that features their beautiful branding on a bold red wall.

The Listen To Your Body signage has proven to be an effective business branding strategy.
