

COST-EFFECTIVE TEMPORARY SIGNAGE

Proflute Signs are lightweight, cost-effective, easy to distribute, install and relocate - they're the ideal quick solution to keep us all safe!

- playgrounds • recreation environments • public spaces •
- parklands & beaches • toilet facilities • general warning signs •
- people movement in retail and supermarket environments •

Great for both short-runs and high volume!

Pyramid signs can be delivered flat-packed and assembled onsite. These free-standing signs are easily moved around ... think queues of people needing redirecting or barriers to manage temporary access closures, such as at checkout registers or entryways.
